### **Ideation phase**

#### **Problem Statement**

# **Customer Problem Statement Template:**

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

**Example:** Plasma Donor Application

#### **PROBLEM STATEMENT:**

Plasma is the liquid component of blood and makes up 55% of the total blood volume. It is important for maintaining body functions. Plasma donation replaces lost blood and plasma in the body when a large amount of blood is lost due to surgery, accident, or immunodeficiency. During the COVID-19 crisis, the need for plasma became a higher priority and the number of donors decreased. A productive measure can be made to help the needy by saving donor information and keeping up-to-date donor lists. With this issue in mind, an application has been built to collect and store donor data and provide information on demand.
